1851.

PLAN OF THE BUILDING.

The Building is divided into Areas of 24 feet square between Columns which are marked on the plan by letters at each corner of the square and by numbers along the sides of the Building; these letters and numbers are marked on every column in the Building in white characters at about 7 feet from the ground.

The Articles are divided into Classes and Nations, and the Names of such Classes and Nations are given on the Plan, and marked upon the iron griders of the Building.

Against the wall East of the East Entrance are arranged examples of woven and felted articles, Jewels of metal, and examples of metal manufacture.
